Journal of the Indian Chemical Society

Vol. 79, 2002

SUBJECT INDEX

Acacia leucophloea

Amino acid and fatty acid composition of seed kernels of *Acacia leucophloea*, 88

Acetohydroxamic acid

Base-catalyzed reaction of acetohydroxamic acid in micellar media containing β-cyclodextrin, 895

Acetylation

Microwave-induced acetylation of some aromatic primary amines using acetic acid, 840

Acetyldihydronaphthalenones

A new and simple approach for the synthesis of 3-acetyl-3,4-dihydro-1(2*H*)-naphthalenones and 3,4-dihydro-3-(2-methyl-1,3-dithiolan-2-yl)-1(2*H*)-naphthalenones, 62

Achyranthus aspera

A new oleanolic acid saponin from *Achyranthus aspera*, 286

Acoustic parameters

Ultrasonic studies of resorcinol in protic and aprotic solvents at 40°, 142

Acoustical properties

Studies on acoustical properties of poly(4,4′-diphenylphthalidediphenyl-4,4′-disulfonate) at 30°, 620

Acrochoene punctata

Stilbenoids and flavonoids from the orchids *Coelogyne uniflora, Ione paleacea* and *Acrochoene punctata*, 169

Acrylonitrile

Polymerization of acrylonitrile initiated by the vanadium(V)-potassium thiocyanate redox system : a kinetic study, 252

Actinides

Inductively coupled plasma mass spectrometric techniques in the elemental and isotopic analysis of lanthanides and actinides, 479

Acylation

Ytterbium metal promoted reaction of diselenides with (3-substituted)imidazolidin-2-one-1-carbonyl chlorides, 437

Adsorption

Study of cationic polyelectrolyte adsorption onto quartz surface using an electrode-separated piezoelectric sensor, 84

Alanine

Study of antiferromagnetic interactions of ruthenium(III) ternary complexes, 462

Alcohols

Kinetics of oxidation of alcohols : phase transfer catalysis, 668

Kinetics and mechanism of the oxidation of secondary alcohols by tetrabutylammonium tribromide, 815

Aldehydes

The Huang-Minlon modification of Wolff-Kishner reduction in rapid and simple way using microwave technology, 906

Aleurilylhydrazide

Synthesis of some new thiocarbamides from a constituent of lac and studies on their antimicrobial activities, 841

Aliquat

Extraction chromatographic studies of cadmium(II) with aliquat-336, 846

Alkaloids

Biosynthesis and synthesis of biologically active alkaloids of Indian medicinal plants, 303

Alkyl acetates

Effect of surfactants on the kinetics of base catalyzed hydrolysis of methyl, ethyl, isopropyl and *n*-butyl acetates, 538

Aluminium

Chelatometric titration of iron, zinc and aluminium involving masking and demasking with acetylacetone, 92

Synthesis, thermal, electrical and biological studies of some Schiff base complexes, 342

Aluminium chloride

Reductive cyclodimerization of arylmethylidenemalono-nitriles promoted by $AlCl_3$/Sm system : a facile synthesis of cyclopentamine derivatives, 256

Aluminium titanate

Sintering behavior of the sol-gel derived aluminium titanate precursor, 913

AM1 methodology

Semi-emperical AM1 investigations of geometric and electronic effects in benzyne mechanism, 693

Amides

Oxidation of aliphatic amides by *N*-chlorobenzenesulfonamide in acid medium catalyzed by ruthenium(III) : a kinetic and mechanistic study, 426

Physicochemical studies on uranium(VI) complexes of *N,N*-dialkylamides, 498

Amidines

Extraction-spectrophotometric determination of rhenium(VII) with thiocyanate and amidines in the presence of cetyltrimethyl-ammonium bromide, 388

Amino acids

Polarographic study of [Cd-L-amino acidate-vitamin B_1] system, 276

Retention behavior of amino acids on plain, tri-*n*-butyl phosphate and tri-*n*-butylamine impregnated silica gel-G layers in mixed mobile phases, 743

Solution equilibrium study on ternary oxovanadium(II)-hydroxyamino acids-imidazole systems, 831

Kinetics and mechanism of oxidation of alanine, phenylalanine and valine by *N*-bromosuccinimide in alkaline medium, 939

Aminodihydropyrrolizinones

Synthesis of amino-1,2-dihydro-1-pyrrolizinones, 698

Aminonaphtholsulfonic acid

Quantitative equilibrium studies on mixed ligand complexes of nickel-, copper- and zinc(II) with some nitrogen and oxygen donor ligands, 645

Aminooxadiazoles

Oxidation of 2-amino-5-aryl-1,3,4-oxadiazole by sodium periodate : a kinetic study, 898

Aminopyrimidines

Synthesis of 2-amino-4,6-diarylpyrimidines from α-halochalcone, 190

Amiodarone

Application of quinone reactions for the assay of amiodarone and ondansetron in pure and pharmaceutical formulations, 974

Ammonium chloride

Chlorination kinetics of copper oxide and cobalt oxide with ammonium chloride, 807

Anilides

Microwave-induced acetylation of some aromatic primary amines using acetic acid, 840

Anthranilic acid

Spectrophotometric determination of platinum(IV) using anthranilic acid, 778

Anthraquinone

Anthraquinone and dihydroflavonol from *Cassia angustifolia*, 289

Antituberculars

Recent advances in research on antituberculars, 320

Apparent molar volume

Apparent molar volumes of L-glycine in aqueous glucose solutions at different temperatures, 866

Argyreia argentea

Chemical constituents of *Argyreia argentea*, *Millingtonia hortensis* and *Pyrostegia venusta*, 291

Aromatic isocyanates

A facile method for preparation of aromatic isocyanates using bis(trichloromethyl)carbonate, 962

Artemisia maritima

A new acetophenone derivative from *Artemisia maritima*, 970

Arylazopyrazoles

Synthesis and antibacterial activity of 4-arylazo-1-substituted-3,5-diphenylpyrazoles, 280

Arylazopyridine

Isolation of one-electron reduced product of $[OsL_3]^{2+}$ [L = 2-(arylazo)pyridines], 755

Arylsydnones

1,3-Dipolar cycloaddition to sydnones : reaction revisited-role of HBr in the transformation of 3-arylsydnones into-3-aryl-5-methyl-2-oxo-Δ^4-1,3,4-oxadiazolines, 629

Ascorbic acid

Colorimetric determination of ascorbic acid in pharmaceuticals using U^{VI}-4-(2-pyridylazo)resorcinol complex, 95

Silver salt of *N*-bromo-4-methylbenzenesulfonamide as a new oxidimetric reagent, 602

Atom-laser interaction

Interaction of atoms with intense laser fields, 308

Aza-Claisen rearrangement

Aza-Claisen rearrangement, 112

Azetidinones

Synthesis and antibacterial activity of new Schiff bases, 4-thiazolidinones and 2-azetidinones, 768

Azido(amino)cobaloximes

Synthesis of azido(amino)cobaloximes, 684

Azocoumarin

Synthesis, X-ray diffraction and microbiological study of 8-[4-(*p*-nitrophenyl)-2-azothiazolyl]-7-hydroxy-4-methylcoumarin, 440

Azodyes

Dinuclear complexes of bivalent Mn, Co, Ni, Cu, Zn, Cd and Hg with bis-bidentate oxygen donor azodye ligands, 536

Polymetallic complexes. Part-LXXVIII. Complexes of Mn^{II}, Co^{II}, Ni^{II}, Cu^{II}, Zn^{II}, Cd^{II} and Hg^{II} with NOON and ONOONO donor azodye ligands, 609

Azoester

Study of new homologous series of azoester mesogens : 4-(4′-*n*-alkoxybenzoyloxy)-3-methylphenylazo-4″-chlorobenzenes, 249

Azopyridine

Isolation of one-electron reduced product of $[OsL_3]^{2+}$ [L = 2-(arylazo)pyridines], 755

Baclofen

Coordination behavior of baclofen towards cobalt(II) ion, 824

Barium

Mixed ligand complexes of alkaline earth metals. Part-XI. Magnesium-, calcium-, strontium- and barium(II) complexes with 5-chlorosalicylaldehyde and β-diketones, 531

Benzene

Simple and sensitive spectrophotometric method for the determination of benzene in environmental samples, 633

Benzenesulfonamides

Metal complexes of some peptide derivatives. Part-XIV. Complex formation of copper(II) with *N*-benzenesulfonamides of some dipeptides, 137

Benzil

Electrochemical reduction of benzil and salicylaldehyde at stainless steel cathode in basic aqueous ethanol medium, 695

Benzoate

Corrosion inhibition of mild steel in aqueous binary solution of aggressive ions, 264

Benzooxazolylaminoiminoethane

Synthesis of complexes of 2-(benzooxazolyl-2-aminoimino)-1,2-diphenylethanone with some bivalent transition metal ions, 339

Benzophenones

Polyprenylated benzophenones from *Garcinia indica*, 968

Benzothiazines

Synthesis and antimicrobial activities of new 1,4-benzothiazines possessing thiazolyl/imidazolyl moieties, 703

Benzothiazinones

Synthesis of some new tricyclic 1,4-benzothiazinones, 472

Benzothiazocarboxamidopyrazolines

Synthesis and biological activity of *N*-phenyl-3-methyl-4-(benzothiazo-2′-carboxamido)-5-aryl-2-pyrazolines, 191

Benztriazoles

Solvolysis of the $[Cr(NCS)_4(benztriazole)_2]^-$ ion in ethanol-water mixtures, 649

Benzylthiostilbenethiol

Organomercury complexes of sulfide-thiol ligands : X-ray structure determination of $\{CH_3Hg[Ph(SCH_3)C{=}C(S)Ph]\}$, 492

Benzyne

Semi-emperical AM1 investigations of geometric and electronic effects in benzyne mechanism, 693

Binuclear complex

Electronic interaction between metal centres in binuclear complexes with long bridges, 105

Biogas

Laboratory and pilot scale production of biogas from different biomass, 267

Biomethanation of pretreated vegetables wastes, 522

Biosensors

Polymers in biosensors – a review, 211

Screen-printed electrodes for glucose using non-conducting polymers and electron mediator, 780

Glucose biosensor with polymer microencapsulated enzyme, 782

Biosorption

Biosorption of heavy metals by *Rhizopus arrhizus* and *Aspergillus niger*, 747

Bipyridyl

Acceptor behavior of organotin(IV)-2,4-dinitrophenoxides with nitrogen donors, 822

Bisdiacetylmonoximephenylenediimine

Synthesis and spectral studies on transition metal complexes with 'Costa type' of ligands containing aromatic motifs, 219

Bisdiacetylmonoximetolylenediimine

Synthesis and spectral studies on transition metal complexes with 'Costa type' of ligands containing aromatic motifs, 219

Bismuth tungstate

The effect of ionic surfactants on the behavior of phenols on bismuth tungstate thin layers, 739

Bis(trichloromethyl)carbonate

A facile method for preparation of aromatic isocyanates using bis(trichloromethyl)carbonate, 962

Boerhaavia diffusa

Lipid constituents of *Boerhaavia diffusa*, 911

Boric acid

Borate complexes in solution. Part-III. Mixed ligand complex formation of cobalt-, nickel- and zinc(II) with boric acid and some (N,N) bidentate ligands, 45

Bovine serum albumin

Microencapsulation of bovine serum albumin by solvent evaporation and *in situ* polymerization techniques, 455

Bromamine-T

Oxidation of isoniazid and glutathione with bromamine-T, 75

Bromate

Oxidation of some α,β-unsaturated compounds by bromate ion in hydrochloric acid medium, 351

Bromide

Extraction behavior of gold(III) from bromide media using some neutral organophosphine extractants, 599

Bromination

Selective bromination of acetophenone derivatives with bromine in methanol, 469

Bromoacetophenone

Selective bromination of acetophenone derivatives with bromine in methanol, 469

Bromomethylbenzenesulfonamide

Silver salt of *N*-bromo-4-methylbenzenesulfonamide as a new oxidimetric reagent, 602

Bromopyrogallol red

Kinetic spectrophotometric determination of titanium(IV) at trace level with bromopyrogallol red in ionic/non-ionic surfactant micellar media, 65

Bromosuccinimide

Kinetics and mechanism of oxidation of alanine, phenylalanine and valine by *N*-bromosuccinimide in alkaline medium, 939

Butanedione

Divalent cobalt, nickel and copper chelates of macrocycle derived from 2,3-butanedione and its dihydrazide, 889

Butanol

Application of various theories on ternary system of heptadecane, butanol and dimethyl sulfoxide at 298.15, 308.15 and 318.15 K, 145

Cadmium

Detection of copper(II) and cadmium(II) without cyanide in qualitative analysis, 197

Polarographic study of [Cd-L-amino acidate-vitamin B_1] system, 276

Studies on the sorption of cadmium(II) on the synthetic gel potassium fluorophlogopite, 520

Studies of natrolite type natural zeolite and its cation-exchanged and adsorbed derivatives with cadmium(II) and NH_3 and H_2S, 580

Extraction chromatographic studies of cadmium(II) with aliquat-336, 846

Complexes of divalent cadmium with *N,N*-dimethyl-3-dibenzo[*b,e*]oxepin-11-(6*H*)-ylidine-1-propanamine chloride : synthesis and evaluation of thermal degradation kinetics, 955

Calcium

Mixed ligand complexes of alkaline earth metals. Part-XI. Magnesium-, calcium-, strontium- and barium(II) complexes with 5-chlorosalicylaldehyde and β-diketones, 531

Speciation of calcium(II) and magnesium(II) complexes of L-glutamine and succinic acid in ethylene glycol-water mixture, 796

Speciation of ternary complexes of calcium(II) and magnesium(II) with L-glutamine and succinic acid in ethylene glycol-water mixtures, 799

Calcium chloride

Diffusion of calcium chloride in single germinating chickpea seed at 298.16 and 318.16 K, 379

Carbamates

Influence of three carbamate pesticides on Mn and Fe status of saline sodic soil of Aligarh. Part-I, 671

Carbonyls

Kinetics and mechanism of the oxidative regeneration of carbonyl compounds from oximes by quinolinium fluorochromate, 347

Cassia angustifolia

Anthraquinone and dihydroflavonol from *Cassia angustifolia*, 289

Catalyst

Synthesis of a new heterogeneous catalyst comprising 12-molybdophosphoric acid on to hydrous zirconia, 892

Catechol

Trends in spectral parameters and nephelauxetic ratio values for some lanthanoid(III)-catechol complex, 960

Celastrus angulatus

Phenolic compounds from *Celastrus angulatus*, 259

Cephalotaxus

Chemical constituents of *Cephalotaxus* species, 787

Ceramides

New lipid metabolites from a new *Sinularia* species soft coral, 732

Chalcones

Three-component reaction of aldehydes, α-haloketones and benzoylacetonitrile and Michael addition of benzoyl-acetonitrile to chalcones both promoted by samarium triiodide : two routes for preparation of 1-benzoyl-1-cyano-2-aryl-3-aroylpropane derivatives, 433

Chemical education

Detection of copper(II) and cadmium(II) without cyanide in qualitative analysis, 197

Chemical oscillation

Chemical oscillation, 393

Chickpea seed

Diffusion of calcium chloride in single germinating chickpea seed at 298.16 and 318.16 K, 379

Chloranil

Studies on weak interactions : charge transfer and hydrogen bonding interactions of chloranil with substituted benzoic acids, amines and naphthols, 811

Chlorination

Kinetics of chlorination of phenol and monosubstituted phenols by *t*-butylhypochlorite in aqueous alkaline medium, 420

Chlorination kinetics of copper oxide and cobalt oxide with ammonium chloride, 807

Chlorobenzenesulfonamide

Oxidation of aliphatic amides by *N*-chlorobenzenesulfonamide in acid medium catalyzed by ruthenium(III) : a kinetic and mechanistic study, 426

Chlorophacinone

Application of polarography for a simple and rapid screening of chlorophacinone in formulations, cereal grains and cauliflower, 976

Chromatography

Simultaneous quantitation of tannis using reversed phase high performance liquid chromatography, 195

Analysis of trace levels of toxic *N,N*-dimethylaminopropylamine in alkylamido betaines by ion-chromatography, 450

A simple paper chromatographic technique for detection of different types of histones in the unirradiated and gamma irradiated states *in vitro*, 557

Retention behavior of amino acids on plain, tri-*n*-butyl phosphate and tri-*n*-butylamine impregnated silica gel-G layers in mixed mobile phases, 743

Extraction chromatographic studies of cadmium(II) with aliquat-336, 846

Chrome industry

Chromium and dolomite removal from rotary filter cake in chrome chemical industries, 99

Chromium

Synthetic and mechanistic aspects of reactions of complexed chromium(VI) compounds, 31

Chromium and dolomite removal from rotary filter cake in chrome chemical industries, 99

Synthesis of some new mixed-ligand complexes of chromium(III) involving quadridentate Schiff bases *N,N'*-(2-hydroxy)propylene-bis{(2-imino-3-oximino)butane} and *N,N'*-(2-hydroxy)propylene-bis(acetylacetoneimine) and bidentate Schiff base *N,N'*-propylene-bis(benzaldimine), 222

Synthesis, thermal, electrical and biological studies of some Schiff base complexes, 342

Gelation of polyacrylamide by Cr^{3+} : analysis of mechanism and thermal stability of the gel, 509

Solvolysis of the $[Cr(NCS)_4(benztriazole)_2]^-$ ion in ethanol-water mixtures, 649

Clerosterol

Sterols from marine green algae of Indian waters, 294

Clindamycin hydrochloride

DDQ (2,3-dichloro-5,6-dicyano-*p*-benzoquinone) as a chromogenic reagent for the determination of clindamycin hydrochloride, clomiphene citrate and mefloquine hydro-chloride, 848

Clomiphene hydrochloride

DDQ (2,3-dichloro-5,6-dicyano-*p*-benzoquinone) as a chromogenic reagent for the determination of clindamycin hydrochloride, clomiphene citrate and mefloquine hydrochloride, 848

Cobalt

Borate complexes in solution. Part-III. Mixed ligand complex formation of cobalt-, nickel- and zinc(II) with boric acid and some (N,N) bidentate ligands, 45

Synthesis of some transition metal complexes with 4-(phenyl/*p*-bromophenyl)thiazolylhydrazone of *o*-anisaldehyde, 48

Preparation and study of an epoxy resin based cobalt(II) ion selective electrode using a cobalt(II) complex, 90

Arial ligands as interplanar spacers in macrocyclic solids, 122

Studies on *N,N'*-[2,2'-bis-thienylmethylidene]tolylene, 135

Synthesis of complexes of 2-(benzooxazolyl-2-aminoimino)-1,2-diphenylethanone with some bivalent transition metal ions, 339

Synthesis and crystal structure of cobalt(III) complexes with pyrazine-2,6- and pyridine-2,6-dicarboxylic acids, 458

Synthesis of complexes of *N*-benzoyl-*N'*-(2-hydroxyphenyl)-thiocarbamide with some bivalent transition metal ions, 642

Synthesis of azido(amino)cobaloximes, 684

Tetrathiocarbamato complexes and forced configurations, 719

Acoustical studies of some novel antimicrobially active 3*d*-metal-Schiff base complexes, 725

Polarographic behavior of cobalt(II)-2,4-dihydroxydeoxybenzoin complexes in 65% ethanol-water media, 763

Coordination behavior of baclofen towards cobalt(II) ion, 824

Divalent cobalt, nickel and copper chelates of macrocycle derived from 2,3-butanedione and its dihydrazide, 889

Synthesis and antimicrobial activity of copper-, cobalt- and nickel(II) complexes with Schiff bases, 921

Graphical methods of determination of stability constant of metal complexes using spectrophotometric and ion-selective electrode measurement data : cobalt(II)-PAR complex, 925

Cobalt oxide

Chlorination kinetics of copper oxide and cobalt oxide with ammonium chloride, 807

Codium dwarkense

Sterols from marine green algae of Indian waters, 294

Coelogyne uniflora

Stilbenoids and flavonoids from the orchids *Coelogyne uniflora*, *Ione paleacea* and *Acrochoene punctata*, 169

Conductance

Conductance and viscosity studies of some univalent electrolytes in water, dimethyl sulfoxide and water + dimethyl sulfoxide mixtures at different temperatures, 860

Conformation analysis

Conformation analyses of *N*-(3-pyridyl)-2-oxo-1-naphthylidenemethylamine, 590

Copper

Synthesis of some transition metal complexes with 4-(phenyl/*p*-bromophenyl)thiazolylhydrazone of *o*-anisaldehyde, 48

Individual simultaneous first derivative spectrophotometric determination of copper and vanadium in alloy steels and complex materials with 2-hydroxy-1-naphthaldehydebenzoylhydrazone, 71

Synthesis and biological activity of copper(II) mixed ligand complexes with α-(2-thienyl)-*N*-(2-hydroxyphenyl)nitrone as the primary ligand, 79

Studies on *N,N'*-[2,2'-bis-thienylmethylidene]tolylene, 135

Metal complexes of some peptide derivatives. Part-XIV. Complex formation of copper(II) with *N*-benzenesulfonamides of some dipeptides, 137

Detection of copper(II) and cadmium(II) without cyanide in qualitative analysis, 197

Synthesis and spectral studies on transition metal complexes with 'Costa type' of ligands containing aromatic motifs, 219

Synthesis of complexes of 2-(benzooxazolyl-2-aminoimino)-1,2-diphenylethanone with some bivalent transition metal ions, 339

Coordination polymers of copper(II) imides with polymeric heterocyclic Schiff bases of thiazole derivatives, 374

Template synthesis of copper(II) complexes of two twelve-membered tetradentate nitrogen donor macrocyclic ligands, 495

Spectrophotometric determination of copper(II) by adsorption of its 1-allyl-3-(6-methylpyridyl)thiourea complex on polyurethane foam, 555

Synthesis of complexes of *N*-benzoyl-*N'*-(2-hydroxyphenyl)-thiocarbamide with some bivalent transition metal ions, 642

Solvent extraction of Copper(II) from sulfate media using neutral extractants, cyanex-921 and Cyanex-923, 681

Tetrathiocarbamato complexes and forced configurations, 719

Acoustical studies of some novel antimicrobially active 3*d*-metal-Schiff base complexes, 725

Divalent cobalt, nickel and copper chelates of macrocycle derived from 2,3-butanedione and its dihydrazide, 889

Synthesis and antimicrobial activity of copper-, cobalt- and nickel(II) complexes with Schiff bases, 921

Copper-imide

Coordination polymers of copper(II) imides with polymeric heterocyclic Schiff bases of thiazole derivatives, 374

Copper oxide

Chlorination kinetics of copper oxide and cobalt oxide with ammonium chloride, 807

Corals

New lipid metabolites from a new *Sinularia* species soft coral, 732

Cordierite

Effect of ZrO_2 substitution on the sintering behavior of cordierite ceramics, 850

Corrosion

Thermal influence on cast iron corrosion in aqueous salt solutions and composite water, 942

Corrosion inhibition

Corrosion inhibition of mild steel in aqueous binary solution of aggressive ions, 264

Crown ether

Solvent extraction separation studies of iron(III) from iron(II) and other cations with dibenzo-18-crown-6 from hydrochloric acid medium, 385

Cyanex

Solvent extraction of copper(II) from sulfate media using neutral extractants, Cyanex-921 and Cyanex-923, 681

Cyanopyridines

Synthesis and antimicrobial screening of cyanopyridines, 772

Acceptor behavior of organotin(IV)-2,4-dinitrophenoxides with nitrogen donors, 822

Cyclodextrin

Base-catalyzed reaction of acetohydroxamic acid in micellar media containing β-cyclodextrin, 895

Cyclodimerization

Reductive cyclodimerization of arylmethylidenemalono-nitriles promoted by $AlCl_3$/Sm system : a facile synthesis of cyclopentamine derivatives, 256

Cyclohexane

Excess Gibbs' energy of binary mixtures of hard sphere fluids, 274

Cyclohexanone

Kinetics of cationic micelle catalyzed oxidation of cyclohexanone by vanadium(V), 58

Cyclohexylidenediphenyloxyacetic acid

Thermal and alkali-catalyzed hydrolysis study of *R,R'*,4,4'-cyclohexylidenediphenyloxyacetic acids and their ethyl esters, 932

Cyclopentamines

Reductive cyclodimerization of arylmethylidenemalono-nitriles promoted by $AlCl_3$/Sm system : a facile synthesis of cyclopentamine derivatives, 256

Cyclopentanedicarboxylate

Complexation of some transition metal ions with 1,2,2-trimethyl-1,3-cyclopentaxedicarbonylate and CDTA, 466

Cyclovoltammetry

Electrochemical behavior of 5-bromosalicylaldehyde isonicotinoylhydrazone, 901

Dendrimers

Toward chiral polyamidoamine (PAMAM) dendritic architecture with tartaric acid core, 442

Density

A study on ion-solvent interactions of some sulfate compounds in aqueous tetrahydrofuran at different temperatures, 623

Density and viscosity of ternary liquid mixtures of pyridine with some polar and non-polar solvents at 303.15 K, 659

Acoustical studies of some novel antimicrobially active 3*d*-metal-Schiff base complexes, 725

Deoximation

Kinetics and mechanism of the oxidative regeneration of carbonyl compounds from oximes by quinolinium fluorochromate, 347

Diaminopropane

Studies on ternary complexes of nickel(II) involving ligands with nitrogen sulfur or oxygen as donor groups, 81

Dichlorobenzene

Photochemical degradation of *p*-dichlorobenzene by photo-Fenton's reagent, 593

Dichlorodicyanobenzoquinone

DDQ (2,3-dichloro-5,6-dicyano-*p*-benzoquinone) as a chromogenic reagent for the determination of clindamycin hydrochloride, clomiphene citrate and mefloquine hydrochloride, 848

Diethyl tartrate

Toward chiral polyamino amine (PAMAM) dendritic architecture with tartaric acid core, 442

Diethylenetriaminepentaacetic acid

Synthesis and analytical applications of a chelating resin containing diethylenetriaminepentaacetic acid, 447

Heterobinuclear complexes of DTPA involving mercury and some other metal ions, 753

Diffusion

Tracer diffusion of potassium and related parameters in three soils of West Bengal, 159

Duffusion of calcium chloride in single germinating chickpea seed at 298.16 and 318.16 K, 379

Dihydroflavonol

Anthraquinone and dihydroflavonol from *Cassia angustifolia*, 289

Dihydromethyldithiolanylnaphthalenones

A new and simple approach for the synthesis of 3-acetyl-3,4-dihydro-1(2*H*)-naphthalenones and 3,4-dihydro-3-(2-methyl-1,3-dithiolan-2-yl)-1(2*H*)-naphthalenones, 62

Diketones

Mixed ligand complexes of alkaline earth metals. Part-XI. Magnesium-, calcium-, strontium- and barium(II) complexes with 5-chlorosalicylaldehyde and β-diketones, 531

Dimethylaminopropylamine

Analysis of trace levels of toxic *N,N*-dimethylaminopropylamine in alkylamido betaines by ion-chromatography, 450

Dimethylsulfoxide

Application of various theories on ternary system of heptadecane, butanol and dimethyl sulfoxide at 298.15, 308.15 and 318.15 K, 145

Conductance and viscosity studies of some univalent

electrolytes in water, dimethyl sulfoxide and water + dimethyl sulfoxide mixtures at different temperatures, 860

Diospyros nigra

Chemical constituents of *Diospyros nigra*, 553

Dioxomolybdenum

Synthesis and crystal structure of *cis*-dioxomolybdenum(VI) complex with salicylaldehyde-2-pyrazinoylhydrazone, 486

Dioxouranium

Studies on oxovanadium(IV) and dioxouranium(VI) complexes of Schiff bases derived from pyrazine-2-carboxylic acid hydrazine and pyrazine-2,3-dicarboxylic acid dihydrazide with salicylaldehyde, 54

Dioxouranium(II) complexes of piperidylhydrazones, 529

Synthesis and spectral studies of thorium (IV) and dioxouranium(II) metal complexes with Schiff base ligand, 686

Dipeptides

Metal complexes of some peptide derivatives. Part-XIV. Complex formation of copper(II) with *N*-benzenesulfonamides of some dipeptides, 137

Dipeptidyl peptidase

Dipeptidyl peptidase IV : regional and subcellular distribution in goat brain, 605

Diphenylpiperidinones

Separation of the effect of solvent on the oxidation of 3-*R*-2,6-diphenylpiperidin-4-ones by QCC in partial aqueous medium into contributions to initial and transition states, 834

Dipyridylamine

Mixed ligand complexes of osmium(II/III/IV)-2,2′-dipyridylamine : synthesis and redox behavior, 713

Dipyrrylmethane

Elegant synthesis of novel pyrroles and dipyrrylmethane of biosynthetic importance, 701

Diselenide

Yatterbium metal promoted reaction of diselenides with (3-substituted)imidazolidin-2-one-1-carbonyl chlorides, 437

Dithiobiurets

Synthesis of 1-tetra-*O*-benzoyl-β-D-glucopyranosyl-5-aryl-2-*S*-benzyl-2,4-isodithiobiurets and their antimicrobial activity, 972

Dithiophosphates

Tris(bipyridyl)- and tris(phenanthroline)nickel(II) *O,O*-alkylene dithiophosphates, 336

Dolomite

Chromium and dolomite removal from rotary filter cake in chrome chemical industries, 99

Doxepin hydrochloride

Complexes of divalent cadmium with *N,N*-dimethyl-3-dibenzo[*b,e*]oxepin-11-(6*H*)-ylidine-1-propanamine)chloride : synthesis and evaluation of thermal degradation kinetics, 955

Drilling fluid

Viscosity of xanthan based drilling fluids : effect of temperature, additives, rheometer geometry, 361

Dyes

Studies of ultrafast reaction dynamics in the excited states of molecules in solution, 1

EDTA

Chelatometric titration of iron, zinc and aluminium involving masking and demasking with acetylacetone, 92

Elaeagnus umbellata

Anthraquinone glycoside from *Elaeagnus umbellata* Thunb., 383

Electrochemical sensor

Conducting polymer based electrochemical sensor for strontium in nitric acid medium, 949

Electrochemistry

Electrochemical behavior of some potential antibacterial hydrazones, 837

Electrode

New electrochemical sensor used for potentiometric determination of copper and nickel, 884

Electrophoresis

Paper and thin layer electrophoresis of metal ions and anions – a review, 563

Electroreduction

Electrochemical reduction of benzil and salicylaldehyde at stainless steel cathode in basic aqueous ethanol medium, 695

Electrotopological state atom index

QSAR with electrotopological state atom index. Part-V. Anti-inflammatory activity of 7α-halogenocorticosteroids and their derivatives, 513

Enoxacin

A study of the fluorescence system of terbium-enoxacin and its applications, 444

Equilibrium constant

Quantitative equilibrium studies on mixed ligand complexes of nickel-, copper- and zinc(II) with some nitrogen and oxygen donor ligands, 645

Errata 853

Ethane

Density functional and frontier orbital study of the physical process of the conformational insomerism of ethane, 240

Ethyl caprylate

Kinetic study of specific base catalyzed hydrolysis of ethyl caprylate in water-DMSO binary system, 278

Ethylene glycol

Kinetics and mechanism of iridium(III) chloride catalyzed oxidation of ethylene glycol and methyl glycol by hexacyanoferrate(III) in aqueous alkaline medium, 665

Europium

Calculation of Judd-Ofelt intensity parameters ($T\lambda$) in some Er^{III}-doped systems by using statistical method, 802

Excess Gibbs' energy

Excess Gibbs' energy of binary mixtures of hard sphere fluids, 274

Excited state

Studies of ultrafast reaction dynamics in the excited states of molecules in solution, 1

Extraction

Extraction behavior of gold(III) from bromide media using some neutral organophosphine extractants, 599

Solvent extraction of copper(II) from sulfate media using neutral extractants, Cyanex-921 and Cyanex-923, 681

Flavonoids

Stilbenoids and flavonoids from the orchids *Coelogyne uniflora, Ione paleacea* and *Acrochoene punctata*, 169

Fluorescein

Spectral studies on the interaction of safranine T, phloxin, fluorescein with inorganic ions and their photogalvanic effect, 225

Fluorescence

A study of the fluorescence system of terbium-enoxacin and its applications, 444

Formation constant

Borate complexes in solution. Part-III. Mixed ligand complex formation of cobalt-, nickel- and zinc(II) with boric acid and some (N,N) bidentate ligands, 45

Metal complexes of some peptide derivatives. Part-XIV. Complex formation of copper(II) with *N*-benzenesulfonamides of some dipeptides, 137

Complexation of some transition metal ions with 1,2,2-trimethyl-1,3-cyclopentanedicarboxylate and CDTA, 466

Formation constants of some bivalent transition metal complexes of *N*-(2-hydroxy-4-sulfononaphthylmethylidene)-4′-bromophenylamine, 614

Electrochemical behavior of mixed complexes of terbium(III) with 4-(2-pyridylazoresorcinol) and 1-(2-pyridylazo)-2-naphthol, 759

A study on potential donor sites of some substituted 1,2,4-triazoles and their denticity, 826

Free bonding energy

Free bonding energy between cations of Entisols, Inceptisols and Alfisols of India, 616

Fullerene

Studies of ultrafast reaction dynamics in the excited states of molecules in solution, 1

Garcinia indica

Polyprenylated benzophenones from *Garcinia indica*, 968

Gelation

Gelation of polyacrylamide by Cr^{3+} : analysis of mechanism and thermal stability of the gel, 509

Glucopyranosylbenzylisodithiobiurets

Synthesis of 1-tetra-*O*-benzoyl-β-D-glucopyranosyl-5-aryl-2-*S*-benzyl-2,4-isodithiobiurets and their antimicrobial activity, 972

Glucose

Screen-printed electrodes for glucose using non-conducting polymers and electron mediator, 780

Glucose biosensor with polymer microencapsulated enzyme, 782

Apparent molar volumes of L-glycine in aqueous glucose solutions at different temperatures, 866

Glutamine

Effect of solvent on protonation equilibria of L-glutamine and succinic acid, 416

Speciation of calcium(II) and magnesium(II) complexes of L-glutamine and succinic acid in ethylene glycol-water mixture, 796

Speciation of ternary complexes of calcium(II) and magnesium(II) with L-glutamine and succinic acid in ethylene glycol-water mixtures, 799

Glutathione

Oxidation of isoniazid and glutathione with bromamine-T, 75

Glycerolipids

Nitrogenous glycerolipids from *Ulva fasciata* (Ulvaceae, Chlorophyta) of West Coast of India, 843

Glycine

Kinetics of oxidation of glycine by pyridinium bromo-chromate in acetic acid medium, 587

Apparent molar volumes of L-glycine in aqueous glucose solutions at different temperatures, 866

Glycols

Electrochemical reduction of bezil and salicylaldehyde at stainless steel cathode in basic aqueous ethanol medium, 695

Glyoxal

Estimation of thallium(III) alone and in mixture with thallium(I) titrimetrically, 631

Goat brain

Dipeptidyl peptidase IV : regional and subcellular distribution in goat brain, 605

Gold

Extraction behavior of gold(III) from bromide media using some neutral organophosphine extractants, 599

Green chemistry

Green chemistry : the chemistry of new millenium, 305

Hafnium

Synthesis of ionic chelates of hafnium(IV)-uracil complexes, 639

Haloarenes

Semi-emperical AM1 investigations of geometric and electronic effects in benzyne mechanism, 693

Halogenocorticosteroids

QSAR with electrotopological state atom index. Part-V. Anti-inflammatory activity of 7α-halogenocorticosteroids and their derivatives, 513

Hard sphere

Excess Gibbs' energy of binary mixtures of hard sphere fluids, 274

Heptadecane

Application of various thories on ternary system of heptadecane, butanol and dimethyl sulfoxide at 298.15, 308.15 and 318.15 K, 145

Heptane

Excess Gibbs' energy of binary mixtures of hard sphere fluids, 274

Heterophragma adenophyllum

Quinonoid constituents from some Bignoniaceae plants, 946

Hexacyanoferrate

Kinetics and mechanism of iridium(III) chloride catalyzed oxidation of ethylene glycol and methyl glycol by hexacyanoferrate(III) in aqueous alkaline medium, 665

Histones

A simple paper chromatographic technique for detection of different types of histones in the unirradiated and gamma irradiated states *in vitro*, 557

Hydration number

Partial molar volumes, viscosity *B*-coefficient and hydration number of some pharmacologically important drugs in aqueous solutions, 356

Hydrazones

Electrochemical behavior of some potential antibacterial hydrazones, 837

Hydrolysis

Kinetic study of specific base catalyzed hydrolysis of ethyl caprylate in water-DMSO binary system, 278

Effect of surfactants on the kinetics of base catalyzed hydrolysis of methyl, ethyl, isopropyl and *n*-butyl acetates, 538

Thermal and alkali-catalyzed hydrolysis study of *R,R'*,4,4'-cyclohexylidenediphenyloxyacetic acids and their ethyl esters, 932

Hydroxy acids

Kinetics and mechanism of the oxidation of some α-hydroxy acids by quinolinium bromochromate, 871

Hydroxybenzene

Quantitative equilibrium studies on mixed ligand complexes of nickel-, copper- and zinc(II) with some nitrogen and oxygen donor ligands, 645

Hydroxydeoxybenzoin

Polarographic behavior of cobalt(II)-2,4-dihydroxydeoxybenzoin complexes in 65% ethanol-water media, 763

Hydroxynaphthaledeneaniline

Potentiometric study of the lanthanide(III) ion complexes with some Schiff bases, 958

Hydroxynaphthaldehydebenzoylhydrazone

Individual simultaneous first derivatives spectrophotometric determination of copper and vanadium in alloy steels and complex materials with 2-hydroxy-1-naphthaldehydebenzoylhydrazone, 71

Hydroxythienylchromenone

A highly selective and sensitive spectrophotometric determination of vanadium(II) using 3-hydroxy-2-(2-thienyl)-4*H*-chromen-4-one, 68

Imidazole

Solution equilibrium study on ternary oxovanadium(II)-hydroxyamino acids-imidazole systems, 831

Imidazolinones

Studies on imidazolinone derivatives : synthesis and antimicrobial activity of 1-[2(1*H*)-quinoxalinon-1'-ylacetamido]-2-phenyl/methyl-4-arylidene-5-oxoimidazolines, 282

Synthesis of pyrimidin-2-ones and imidazolin-2-ones, 627

Indolephenothiazines

Synthesis of some arylalkoxyphthalimides, 193

Inductively coupled plasma mass spectrometry

Inductively coupled plasma mass spectrometric techniques in the elemental and isotopic analysis of lanthanides and actinides, 479

Ion exchange

Kinetics of ion diffusion in Lewatit in aqueous isopropanol media, 655

Kinetics parameters and sorption of metal ions on newly synthesized chelate forming ion exchange resin, 705

Ion selective electrode

Preparation and study of an epoxy resin based cobalt(II) ion selective electrode using a cobalt(II) complex, 90

Ion paleacea

Stilbenoids and flavonoids from the orchids *Coelogyne uniflora, Ione paleacea* and *Acrochoene puctata*, 169

IR spectra

Infrared and Raman spectra of substituted *N*-(phenyl)-2-chloroacetamides, $X_yC_{5-y}NHCOCH_2Cl$ (X = H, *o/m/p*-CH_3, Cl or NO_2 and y = 1, 2 or 3), 163

Substituent effect on the infrared and Raman spectra of *N*-(substituted-phenyl)-2,2-dichloroacetamides, $X_yC_6H_{5-y}NHCOCHCl_2$ (X = *o/m/p*-CH_3 or Cl; y = 1, 2 or 3), 231

Iron

Chelatometric titration of iron, zinc and aluminium involving masking and demasking with acetylacetone, 92

Synthesis, thermal, electrical and biological studies of some Schiff base complexes, 342

Solvent extraction separation studies of iron(III) from iron(II) and other cations with dibenzo-18-crown-6 from hydrochloric acid medium, 385

Crystal structure of iron(III) complex with pyridine-2,6-dicarboxylic acid, 489

Thermal influence on cast iron corrosion in aqueous salt solutions and composite water, 942

Isocyanates

A facile method for preparation of aromatic isocyanates using bis(trichloromethyl)carbonate, 962

Isomerism

Density functional and frontier orbital study of the physical process of the conformational isomerism of ethane, 240

Isoniazid

Oxidation of isoniazid and glutathione with bromamine-T, 75

Isonicotinoylhydrazone

Elecrochemical behavior of 5-bromosalicylaldehyde isonicotinoylhydrazone, 901

Judd-Ofelt intensity parameters

Calculation of Judd-Ofelt intensity parameters (T_λ) in some Er^{III}-doped systems by using statistical method, 802

Ketones

The Huang-Minlon modificiation of Wolff-Kishner reduction in rapid and simple way using microwave technology, 906

Kinetics

Kinetics of cationic micelle catalyzed oxidation of cyclohexanone by vanadium(V), 58

Peroxomonosulfuric acid oxidations : kinetics and mechanism of oxidation of *N*-methylaniline, 236

Kinetic study of specific base catalyzed hydrolysis of ethyl caprylate in water-DMSO binary system, 278

Kinetics and mechanism of the oxidative regeneration of carbonyl compounds from oximes by quinolinium fluorochromate, 347

Oxidation of some α,β-unsaturated compounds by bromate ion in hydrochloric acid medium, 351

Kinetics of chlorination of phenol and monosubstituted phenols by *t*-butylhypochlorite in aqueous alkaline medium, 420

Kinetics of oxidation of glycine by pyridinium bromo-chromate in acetic acid medium, 587

Non-isothermal degradation and kinetic parameters of bidentate Schiff base complexes, 611

Kinetics of ion diffusion in Lewatit in aqueous isopropanol media, 655

Kinetics and mechanism of iridium(III) chloride catalyzed oxidation of ethylene glycol and methyl glycol by hexacyanoferrate(III) in aqueous alkaline medium, 665

Kinetics of oxidation of alcohols : phase transfer catalysis, 668

Kinetics parameters and sorption of metal ions on newly synthesized chelate forming ion exchange resin, 705

Chlorination kinetics of copper oxide and cobalt oxide with ammonium chloride, 807

Kinetics and mechanism of the oxidation of secondary alcohols by tetrabutylammonium tribromide, 815

Separation of the effect of solvent on the oxidation of 3-*R*-2,6-diphenylpiperidin-4-ones by QCC in partial aqueous medium into contributions to initial and transition states, 834

Kinetics and mechanism of the oxidation of some α-hydroxy acids by quinolinium bromochromate, 871

Base-catalyzed reaction of acetohydroxamic acid in micellar media containing β-cyclodextrin, 895

Oxidation of 2-amino-5-aryl-1,3,4-oxadiazole by sodium periodate : a kinetic study, 898

Kinetics and mechanism of oxidation of alanine, phenylalanine and valine by *N*-bromosuccinimide in alkaline medium, 939

Kirganelia reticulata

Chemical constituents of the roots of *Kirganelia reticulata*, 776

Lac

Chemical modifications of lac. Part-II. Application of some modified lac on jute fibre to improve its serviceability, 298

Langmuir-Blodgett film

Arial ligands as interplanar spacers in macrocyclic solids, 122

Lanthanides

Inductively coupled plasma mass spectrometric techniques in the elemental and isotopic analysis of lanthanides and actinides, 479

Potentiometric study of the lanthanide(III) ion complexes with some Schiff bases, 958

Trends in spectral parameters and nephelauxetic ratio values for some lanthanoid(III)-catechol complex, 960

Lapachol

Synthesis of lapachol derivatives and their antibacterial activity, 765

Laser

Interaction of atoms with intense laser fields, 308

Lead

Studies on lead(II)-exchanged natural zeolite and its interacted derivatives with NH_3 and H_2S before and after heating, 345

Letter to the Editor, 784

Leucocrystal violet

Sub-ppm determination of thallium(I) in biological and complex materials, 261

Lewatit

Kinetics of ion diffusion in Lewatit in aqueous isopropanol media, 655

Limiting apparent molar volume

Limiting apparent molar volumes, their temperature derivatives and viscosity β-coefficients for some alkali-metal chlorides in aqueous tetrahydrofuran mixture, 148

Liquid crystal

Study of new homologous series of azoester mesogens : 4-(4′-*n*-alkoxybenzoyloxy)-3-methylphenylazo-4″-chlorobenzenes, 249

Liquid membrane electrode

New electrochemical sensor used for potentiometric determination of copper and nickel, 884

Lithium chloride

Limiting apparent molar volumes, their temperature derivatives and viscosity β-coefficients for some alkali-metal chlorides in aqueous tetrahydrofuran mixture, 148

Macrocycles

Divalent cobalt, nickel and copper chelates of macrocycle derived from 2,3-butanedione and its dihydrazide, 889

Magnesium

Potentiometric determination of formation constants of metal ion complexes with 4-hydrazinobenzofuro[3,2-*d*]pyrimidine Schiff base, 464

Mixed ligand complexes of alkaline earth metals. Part-XI. Magnesium-, calcium-, strontium- and barium(II) complexes with 5-chlorosalicylaldehyde and β-diketones, 531

Speciation of calcium(II) and magnesium(II) complexes of L-glutamine and succinic acid in ethylene glycol-water mixture, 796

Speciation of ternary complexes of calcium(II) and magnesium(II) with L-glutamine and succinic acid in ethylene glycol-water mixtures, 799

Magnesium aluminate

Effect of MgO : Al_2O_3 mole ratio on the densification of magnesia-alumina precursor leading to spinel formation, 916

Magnetic susceptibility

Magnetic susceptibilities of pulses, grams, grains and seeds, 541

Malonic acid

Effect of surfactants on protonation equilibria of oxalic and malonic acids, 155

Manganese

Synthesis, thermal, electrical and biological studies of some Schiff base complexes, 342

Marine alage

Sterols from marine green algae of Indian waters, 294

Mefloquine hydrochloride

DDQ (2,3-dichloro-5,6-dicyano-*p*-benzoquinone) as a chromogenic reagent for the determination of clindamycin hydrochloride, clomiphene citrate and mefloquine hydrochloride, 848

Melia azedarach

Phytochemical investigation of *Melia azedarach* roots, 548

Memorial Lecture

Electronic interaction between metal centres in binuclear complexes with long bridges, 105

Biosynthesis and synthesis of biologically active alkaloids of Indian medicinal plants, 303

Interaction of atoms with intense laser fields, 308

Mercuric iodide

Studies of ultrafast reaction dynamics in the excited states of molecules in solution, 1

Mercury

Complexing behavior of nucleic acid constituents towards mercuric chloride, 183

Organomercury complexes of sulfide-thiol ligands : X-ray structure determination of {$CH_3Hg[Ph(SCH_3)C{=}C(S)$-Ph]}, 492

Spectroscopic investigation of the reaction product of S_4N_3Cl with mercurous chloride, 751

Heterobinuclear complexes of DTPA involving mercury and some other metal ions, 753

Metal ion separation

Synthesis and analytical applications of a chelating resin containing diethylenetriaminepentaacetic acid, 447

Metal-phthalocyanines

Arial ligands as interplanar spacers in macrocyclic solids, 122

Metal pollution

Pollution studies of industrial wastes with a reference to toxic trace metals by voltammetry, 707

Methyl glycol

Kinetic and mechanism of iridium(III) chloride catalyzed oxidation of ethylene glycol and methyl glycol by hexacyanoferrate(III) in aqueous alkaline medium, 665

Methylaniline

Peroxomonosulfuric acid oxidations : kinetics and mechanism of oxidation of *N*-methylaniline, 236

Methylthiostilbenethiol

Organomercury complexes of sulfide-thiol ligands : X-ray structure determination of {$CH_3Hg[Ph(SCH_3)C=C(S)-Ph]$}, 492

Micelles

Studies on the effect of organized media and nanoparticles on the physical and chemical properties of some organic and inorganic molecules in solution, 14

Micellization

Effect of urea on the surface and thermodynamic properties of some micellar solutions, 151

Microencapsulation

Microencapsulation of bovine serum albumin by solvent evaporation and *in situ* polymerization techniques, 455

Microwave-assisted reactions

Microwave assisted synthesis of fungicidal compounds using Knoevenagel condensation in dry media, 596

Microwave-induced acetylation of some aromatic primary amines using acetic acid, 840

The Huang-Minlon modification of Wolff-Kishner reduction in rapid and simple way using microwave technology, 906

Millingtonia hortensis

Chemical constituents of *Argyreia argentea*, *Millingtonia hortensis* and *Pyrostegia venusta*, 291

Mineral salts

A study on partial molar volumes of some mineral salts in water at various temperatures, 729

Molecular obritals

Density functional and frontier orbital study of the physical process of the conformational isomerism of ethane, 240

Molybdenum

Synthesis and crystal structure of *cis*-dioxomolybdenum(VI) complex with salicylaldehyde-2-pyrazinoylhydrazone, 486

Molybdophosphoric acid

Synthesis of a new heterogeneous catalyst comprising 12-molybdophosphoric acid on to hydrous zirconia, 892

Mullite

Effect of Y_2O_3 on the sintering behavior of sol-gel derived zirconia-mullite precursor through inorganic route, 819

Nanoparticles

Studies on the effect of organized media and nanoparticles on the physical and chemical properties of some organic and inorganic molecules in solution, 14

Naphthalenones

A new and simple approach for the synthesis of 3-acetyl-3,4-dihydro-1(2*H*)-naphthalenones and 3,4-dihydro-3-(2-methyl-1,3-dithiolan-2-yl)-1(2*H*)-naphthalenones, 62

Naphthoquinones

Complex compounds of nickel, palladium and platinum involved in electron transfer processes, 412

Natrolite

Studies of natrolite type natural zeolite and its cation-exchanged and adsorbed derivatives with cadmium(II) and NH_3 and H_2S, 580

Nickel

Borate complexes in solution. Part-III. Mixed ligand complex formation of cobalt-, nickel- and zinc(II) with boric acid and some (N,N) bidentate ligands, 45

Synthesis of some transition metal complexes with 4-(phenyl/*p*-bromophenyl)thiazolylhydrazone of *o*-anisaldehyde, 48

Studies on ternary complexes of nickel(II) involving ligands with nitrogen sulfur or oxygen as donor groups, 81

Studies on *N,N'*-[2,2'-bis-thienylmethylidene]tolylene, 135

Synthesis and spectral studies on transition metal complexes with 'Costa type' of ligands containing aromatic motifs, 219

A very rare mononuclear nickel(II) species bonded via

oxygen atom of oximato function using pyridylazo-oxime type of ligands, 271

Tris(bipyridyl)- and tris(phenanthroline)nickel(II)-*O,O*-alkylene dithiophosphates, 336

Synthesis of complexes of 2-(benzooxazolyl-2-aminoimino)-1,2-diphenylethanone with some bivalent transition metal ions, 339

A quantomechanical explanation for the electronic transitions of the square-planar $[MLCl_2]$ complexes, 409

Complex compounds of nickel, palladium and platinum involved in electron transfer processes, 412

Synthesis of strapped nickel(II) macrocyclic complex of tetraaza[14]annulene, 525

Spectral studies and lattice parameters of nickel(II) and palladium(II) complexes with 5-nitrosalicylaldoxime, 534

Synthesis of complexes of *N*-benzoyl-*N'*-(2-hydroxy-phenyl)thiocarbamide with some bivalent transition metal ions, 642

Tetrathiocarbamato complexes and forced configuration, 719

Acoustical studies of some novel antimicrobially active 3*d*-metal-Schiff base complexes, 725

Divalent cobalt, nickel and copper chelates of macrocycle derived from 2,3-butanedione and its dihydrazide, 889

Synthesis and antimicrobial activity of copper-, cobalt- and nickel(II) complexes with Schiff bases, 921

Nitriles

Reductive cyclodimerization of arylmethylidenemalono-nitriles promoted by $AlCl_3$/Sm system : a facile synthesis of cyclopentamine derivatives, 256

Nitro compounds

Studies on the effect of organized media and nanoparticles on the physical and chemical properties of some organic and inorganic molecules in solution, 14

Nitrone

Synthesis and biological activity of copper(II) mixed ligand complexes with α-(2-thienyl)-*N*-(2-hydroxyphenyl)nitrone as the primary ligand, 79

Nitrosalicylaldoxime

Spectral studies and lattice parameters of nickel(II) and palladium(II) complexes with 5-nitrosalicylaldoxime, 534

Nonlinear chemical dynamics

Chemical oscillation, 393

Nucleic acid

Complexing behavior of nucleic acid constituents towards mercuric chloride, 183

Study of antiferromagnetic interactions of ruthenium(III) ternary complexes, 462

Obituary

Pasupati Sengupta, 475

Amitabha Roy Chowdhury, 476

T. R. Govindachari, 635

Ondansetron

Application of quinone reactions for the assay of amiodarone and ondansetron in pure and pharmaceutical formulations, 974

Organophosphines

Extraction behavior of gold(III) from bromide media using some neutral organophosphine extractants, 599

Osmium

Mixed ligand complexes of osmium(II/III/IV)-2,2′-dipyridylamine : synthesis and redox behavior, 713

Isolation of one-electron reduced product of $[OsL_3]^{2+}$ [L = 2-(arylazo)pyridines], 755

Oxadiazolinones

1,3-Dipolar cycloaddition to sydnones : reaction revisited-role of HBr in the transformation of 3-arylsydnones into 3-aryl-5-methyl-2-oxo-Δ^4-1,3,4-oxadiazolines, 629

Oxalate

Effect of denaturants on the speciation of dicarboxylic acid : uranium(VI) complexes of oxalic acid in micellar media, 583

Oxalic acid

Effect of surfactants on protonation equilibria of oxalic and malonic acids, 155

Oxazines

Synthesis and antimicrobial activity of 2-imino-4-(benzimidazol-2-yl)-6-aryl-6*H*-2,3-dihydro-1,3-thia/oxazines, 966

Oxidation

Synthetic and mechanistic aspects of reactions of complexed chromium(VI) compounds, 31

Kinetics of cationic micelle catalyzed oxidation of cyclohexanone by vanadium(V), 58

Peroxomonosulfuric acid oxidations : kinetics and mechanism of oxidation of *N*-methylaniline, 236

Oxidation of some α,β-unsaturated compounds by bromate ion in hydrochloric acid medium, 351

Oxidation of aliphatic amides by *N*-chlorobenzenesulfonamide in acid medium catalyzed by ruthenium(III) : a Kinetic and mechanistic study, 426

Kinetics of oxidation of glycine by pyridinium bromochromate in acetic acid medium, 587

Kinetics and mechanism of iridium(III) chloride catalyzed oxidation of ethylene glycol and methyl glycol by hexacyanoferrate(III) in aqueous alkaline medium, 665

Kinetics of oxidation of alcohols : phase transfer catalysis, 668

Kinetics and mechanism of the oxidation of secondary alcohols by tetrabutylammonium tribromide, 815

Separation of the effect of solvent on the oxidation of 3-*R*-2,6-diphenylpiperidin-4-ones by QCC in partial aqueous medium into contributions to initial and transition states, 834

Kinetics and mechanism of the oxidation of some α-hydroxy acids by quinolinium bromochromate, 871

Oxidation of 2-amino-5-aryl-1,3,4-oxadiazole by sodium periodate : a kinetic study, 898

Kinetics and mechanism of oxidation of alanine, phenylalanine and valine by *N*-bromosuccinimide in alkaline medium, 939

Oximes

Syntheis and EPR spectral studies on oxovanadium(IV) complexes of some oximes, 129

Oxovanadium

Studies on oxovanadium(IV) and dioxouranium(VI) complexes of Schiff bases derived from pyrazine-2-carboxylic acid hydrazine and pyrazine-2,3-dicarboxylic acid dihydrazide with salicylaldehyde, 54

Synthesis and EPR spectral studies on oxovanadium(IV) complexes of some oximes, 129

Tetrathiocarbamato complexes and forced configurations, 719

Solution equilibrium study on ternary oxovanadium(II)-hydroxyamino acids-imidazole systems, 831

Palladium

A quantomechanical explanation for the electronic transitions of the square-planar [MCl_2] complexes, 409

Complex compounds of nickel, palladium and platinum involved in electron transfer processes, 412

Spectral studies and lattice parameters of nickel(II) and palladium(II) complexes with 5-nitrosalicylaldoxime, 534

Complexes of rhodium(III), palladium(II) and platinum(II) with 2-(2′-pyridyl)benzthiazole, 761

Paper electrophoresis

Paper and thin layer electrophoresis of metal ions and anions – a review, 563

Partial molar volume

Partial molar volumes, viscosity *B*-coefficient and hydration number of some pharmacologically important drugs in aqueous solutions, 356

A study on partial molar volumes of some mineral salts in water at various temperatures, 729

Pentadienamides

Synthetic and spectroscopic studies of structural analogs of piperamides – the 5-aryl-2*E*,4*E*-pentadienamides, 876

Peroxomonosulfuric acid

Peroxomonosulfuric acid oxidations : kinetics and mechanism of oxidation of *N*-methylaniline, 236

Pesticide

Influence of three carbamate pesticides on Mn and Fe status of saline sodic soil of Aligarh. Part-I, 671

Phase transfer catalysis

Kinetics of oxidation of alcohols : phase transfer catalysis, 668

Phenanthroline

Acceptor behavior of organotin(IV)-2,4-dinitrophenoxides with nitrogen donors, 822

Phenols

Kinetics of chlorination of phenol and monosubstituted phenols by *t*-butylhypochlorite in aqueous alkaline medium, 420

The effect of ionic surfactants on the behavior of phenols on bismuth tungstate thin layers, 739

Hydroxylation of benzene using titanium dioxide as a semiconductor, 904

Phenol formaldehyde resins

Synthesis and analytical applications of a chelating resin containing diethylenetriaminepentaacetic acid, 447

Phenothiazines

Mixed valence paramagnetic trinuclear complexes of ruthenium and rhodium with *N*-alkylphenothiazines, 51

Synthesis and fungicidal activity of the complexes of *N*-alkylphenothiazines with titanium(IV) and zirconium(IV), 828

Phenoxyacetic acids

Thermal analysis of phenoxyacetic acids of bisphenol derivatives and poly(*R*,*R*′,4,4′-cyclohexylidenediphenylene phosphorochloridate), 936

Phenylchloroacetamides

Infrared and Raman spectra of substituted *N*-(phenyl)-2-chloroacetamides, $X_yC_{5-y}NHCOCH_2Cl$ (X = H, *o*/*m*/*p*-CH_3, Cl or NO_2 and y = 1, 2 or 3), 163

Phenyldichloroacetamides

Substituent effect on the infrared and Raman spectra of *N*-(substituted-phenyl)-2,2-dichloroacetamides. $X_yC_6H_{5-y}NHCOCHCl_2$ (X = *o*/*m*/*p*-CH_3 or Cl; y = 1, 2 or 3), 231

Phenylsalicylaldimineazobiphenyl

Polychelates of 4,4′-bis[(*N*-phenylsalicylaldimine-5)azo]biphenyl with some transition metal ions, 722

Phloxin

Spectral studies on the interaction of safranine T, phloxin, fluorescein with inorganic ions and their photogalvanic effect, 225

Photobleaching

Use of zinc oxide particulate system as a photocatalyst : photobleaching of Rose Bengal, 929

Photocatalyst

Photocatalytic reaction of vanillin oxime and salicylaldehyde oxime by TiO_2 semiconductor, 185

Hydroxylation of benzene using titanium dioxide as a semiconductor, 904

Use of zinc oxide particulate system as a photocatalyst : photobleaching of Rose Bengal, 929

Photogalvanic cell

Spectral studies on the interaction of safranine T, phloxin, fluorescein with inorganic ions and their photogalvanic effect, 225

Photolysis

Photochemical degradation of *p*-dichlorobenzene by photo-Fenton's reagent, 593

Photo-oxidation

Photocatalytic reaction of vanillin oxime and salicylaldehyde oxime by TiO_2 semiconductor, 185

Phthalimides

Synthesis of some arylalkoxyphthalimides, 193

Picoline

Synthesis and spectral characterization of mixed ligand zinc(II) complexes with heteroaromatic thiosemicarbazones and pyridine/picoline, 132

Piezoelectric sensor

Study of cationic polyelectrolyte adsorption onto quartz surface using an electrode-separated piezoelectric sensor, 84

Piperidylhydrazones

Dioxouranium(II) complexes of piperidylhydrazones, 529

Platinum

A quantomechanical explanation for the electronic transitions of the square-planar [$MLCl_2$] complexes, 409

Complex compounds of nickel, palladium and platinum involved in electron transfer processes, 412

Complexes of rhodium(III), palladium(II) and platinum(II) with 2-(2′-pyridyl)benzthiazole, 761

Spectrophotometric determination of platinum(IV) using anthranilic acid, 778

Polarography

Analysis of vitamin C content in samples of different origin, 97

Electrochemical behavior of 5-bromosalicylaldehyde isonicotinoylhydrazone, 901

Microdetermination of tungsten in environmental samples by differential pulse polarography, 953

Application of polarography for a simple and rapid screening of chlorophacinone in formulations, cereal grains and cauliflower, 976

Pollution

Pollution of the river Ganga and the Ganga Action Plan : an evaluation, 366

Polyacrylamide

Gelation of polyacrylamide by Cr^{3+} : analysis of mechanism and thermal stability of the gel, 509

Polyamidoamine

Toward chiral polyamidoamine (PAMAM) dendritic architecture with tartaric acid core, 442

Polyaniline

Conducting polymer based electrochemical sensor of strontium in nitric acid medium, 949

Poly(diphenylphthalidediphenyldisulfonate)

Studies on acoustical properties of poly(4,4′-diphenylphthalidediphenyl-4,4′-disulfonate) at 30°, 620

Polyelectrolytes

Study of cationic polyelectrolyte adsorption onto quartz surface using an electrode-separated piezoelectric sensor, 84

Polyethylene glycol

Effect of polymer and temperature on the critical micellar concentration of aqueous sodium dodecyl sulfate, 505

Polymerization

Polymerization of acrylonitrile initiated by the vanadium(V)-potassium thiocyanate redox system : a kinetic study, 252

Polyphosphate

Thermal analysis of phenoxyacetic acids of bisphenol derivatives and poly(*R*,*R*′,4,4′-cyclohexylidenediphenylene phosphorochloridate), 936

Polyurethane

Studies on stability of biuret based polyurethane potting compound under autoclaving conditions, 179

Porphyrins

Synthesis of some novel porphyrins, 908

Potassium

Tracer diffusion of potassium and related parameters in three soils of West Bengal, 159

Potassium chloride

Limiting apparent molar volumes, their temperature derivatives and viscosity *B*-coefficients for some alkali-metal chlorides in aqueous tetrahydrofuran mixture, 148

Potassium fluorophlogopite

Studies on the sorption of cadmium(II) on the synthetic gel potassium fluorophlogopite, 520

Presidential address

Green chemistry : the chemistry of new millenium, 305

Protonation constant

Effect of surfactants on protonation equilibria of oxalic and malonic acids, 155

Effect of solvent on protonation equilibria of L-glutamine and succinic acid, 416

Pulses

Magnetic susceptibilities of pulses, grams, grains and seeds, 541

Punica granatum

Terpenoid constituents from some indigenous plants, 550

Pyrazinedicarboxylic acid

Synthesis and crystal structure of cobalt(III) complexes with pyrazine-2,6- and pyridine-2,6-dicarboxylic acids, 458

Pyrazolines

Synthesis and biological activity of *N*-phenyl-3-methyl-4-(benzothiazo-2′-carboxamido)-5-aryl-2-pyrazolines, 191

Synthesis and antimicrobial activity of some pyrazoline derivatives of 4(3*H*)-quinazolinones, 770

Pyridine

Synthesis and spectral characterization of mixed ligand zinc(II) complexes with heteroaromatic thiosemicarbazones and pyridine/picoline, 132

Density and viscosity of ternary liquid mixtures of pyridine with some polar and non-polar solvents at 303.15 K, 659

Pyridinedicarboxylic acid

Crystal structure of iron(III) complex with pyridine-2,6-dicarboxylic acid, 489

Synthesis and crystal structure of cobalt(III) complexes with pyrazine-2,6- and pyridine-2,6-dicarboxylic acids, 458

Pyridopyrazones

Aza-Claisen rearrangement, 112

Pyridopyrimidines

Aza-Claisen rearrangement, 112

Pyridylazonaphthol

Electrochemical behavior of mixed complexes of terbium(III) with 4-(2-pyridylazoresorcinol) and 1-(2-pyridylazo)-2-naphthol, 759

Pyridylazo-oxime

A very rare mononuclear nickel(II) species bonded via oxygen atom of oximato function using pyridylazo-oxime type of ligands, 271

Pyridylazoresorcinol

Electrochemical behavior of mixed complexes of terbium(III) with 4-(2-pyridylazoresorcinol) and 1-(2-pyridylazo)-2-naphthol, 759

Graphical methods of determination of stability constant of metal complex using spectrophotometric and ion-selective electrode measurement data : cobalt(II)- PAR complex, 925

Pyridylbenzthiazole

Complexes of rhodium(III), palladium(II) and platinum(II) with 2-(2′-pyridyl)benzthiazole, 761

Pyridylnaphthylidenemethylamine

Conformation analyses of *N*-(3-pyridyl)-2-oxo-1-naphthylidenemethylamine, 590

Pyrimidines

Synthesis of 2-amino-4,6-diarylpyrimidines from α-halochalcone, 190

Pyrimidinones

Synthesis of pyrimidin-2-ones and imidazolin-2-ones, 627

Pyrostegia venusta

Chemical constituents of *Argyreia argentea, Millingtonia hortensis* and *Pyrostegia venusta*, 291

Terpenoid constituents from some indigenous plants, 550

Pyrroles

Elegant synthesis of novel pyrroles and dipyrrylmethane of biosynthetic importance, 701

Pyrrolizinones

Synthesis of amino-1,2-dihydro-1-pyrrolizinones, 698

QSAR

QSAR with electrotopological state atom index. Part-V. Anti-inflammatory activity of 7α-halogenocorticosteroids and their derivatives, 513

Quartz

Study of cationic polyelectrolytic adsorption onto quartz surface using an electrode-separated piezoelectric sensor, 84

Quinazolinones

Synthesis and antimicrobial activity of some pyrazoline derivatives of 4(3*H*)-quinazolinones, 770

Quinobenzoxazepines

Synthesis of quino[3,2-*f*][1,5]benzoxazepines, 774

Quinolinium bromochromate

Kinetics and mechanism of the oxidation of some L-hydroxy acids by quinolinium bromochromate, 871

Quinonoids

Quinonoid constituents from some Bignoniaceae plants, 946

Raman spectra

Infrared and Raman spectra of substituted *N*-(phenyl)-2-chloroacetamides, $X_yC_{5-y}NHCOCH_2Cl$ (X = H, *o/m/p*-CH_3, Cl or NO_2 and y = 1, 2 or 3), 163

Substituent effect on the infrared and Raman spectra of *N*-(substituted-phenyl)-2,2-dichloroacetamides, $XyC_6H_{5-y}NHCOCHCl_2$ (X= *o/m/p*-CH_3 or Cl; y = 1, 2 or 3), 231

Reaction dynamics

Studies of ultrafast reaction dynamics in the excited states of molecules in solution, 1

Reduction

Studies on the effect of organized media and nanoparticles on the physical and chemical properties of some organic and inorganic molecules in solution, 14

The Huang-Minlon modification of Wolff-Kishner reduction in rapid and simple way using microwave technology, 906

Reductive coupling

Sm/$TiCl_4$ system induced reductive coupling reactions : synthesis of tetraarylfurans, 188

Resorcinol

Ultrasonic studies of resorcinol in protic and aprotic solvents at 40°, 142

Review

Synthetic and mechanistic aspects of reactions of complexed chromium(VI) compounds, 31

Aza-Claisen rearrangement, 112

Polymers in biosensors – a review, 211

Biosynthesis and synthesis of biologically active alkaloids of Indian medicinal plants, 303

Interaction of atoms with intense laser fields, 308

Recent advances in research on antituberculars, 320

Chemical oscillation, 393

Inductively coupled plasma mass spectrometric techniques in the elemental and isotopic analysis of lanthanides and actinides, 479

Paper and thin layer electrophoresis of metal ions and anions – a review, 563

Chemical constituents of *Cephalotaxus* species, 787

Rhenium

Mixed valence paramagnetic trinuclear complexes of ruthenium and rhodium with *N*-alkylphenothiazines, 51

Extraction-spectrophotometric determination of rhenium(VII) with thiocyanate and amidines in the presence of cetyltrimethyl-ammonium bromide, 388

Rhodium

Mixed valence paramagnetic trinuclear complexes of ruthenium and rhodium with *N*-alkylphenothiazines, 51

Complexes of rhodium(III), palladium(II) and platinum(II) with 2-(2′-pyridyl)benzthiazole, 761

Rose Bengal

Use of zinc oxide particulate system as a photocatalyst : photobleaching of Rose Bengal, 929

Ruthenium

Study of antiferromagnetic interactions of ruthenium(III) ternary complexes, 462

Synthesis, structure, spectra and redox behavior of a ruthenium(III) complex with a tripodal Schiff base ligand, 857

Safranine T

Spectral studies on the interaction of safranine T, phloxin, fluorescein with inorganic ions and their photogalvanic effect, 225

Salicylaldehyde

Mixed ligand complexes of alkaline earth metals Part.-XI. Magnesium-, calcium-, strontium- and barium(II) complexes with 5-chlorosalicylaldehyde and β-diketones, 531

Electrochemical reduction of benzil and salicylaldehyde at stainless steel cathode in basic aqueous ethanol medium, 695

Salicylaldehyde pyrazinoylhydrazone

Synthesis and crystal structure of *cis*-dioxomolybdenum(VI) complex with salicylaldehyde-2-pyrazinoylhydrazone, 486

Salicylideneaminoethylamine

Synthesis, structure, spectra and redox behavior of a ruthenium(III) complex with a tripodal Schiff base ligand, 857

Salmalia malabracia

Terpenoid constituents from some indigenous plants, 550

Samarium

Reductive cyclodimerization of arylmethylidenemalononitriles promoted by $AlCl_3$/Sm system : a facile synthesis of cyclopentamine derivatives, 256

Saponin

A new oleanolic acid saponin from *Achyranthus aspera*, 286

Schiff base

Studies on oxovanadium(IV) and dioxouranium(VI) complexes of Schiff bases derived from pyrazine-2-carboxylic acid hydrazine and pyrazine-2,3-dicarboxylic acid dihydrazide with salicylaldehyde, 54

Synthesis and antibacterial activities of 1-(*p*-chlorophenyl)-2-amino/hydrazino-4-(*p*-nitrophenyl/*p*-chlorophenyl)-1,6-dihydro-1,3,5-triazine-6-thiones and related thiocarbamides, thiosemicarbazides and Schiff bases, 176

Synthesis of some new mixed-ligand complexes of chromium(III) involving quadridentate Schiff bases *N,N'*-(2-hydroxy)propylenebis{(2-imino-3-oximino)butane} and *N,N'*-(2-hydroxy)propylene-bis(acetylacetoneimine) and bidentate Schiff base *N,N'*-propylenebis(benzaldimine), 222

Synthesis, thermal, electrical and biological studies of some Schiff base complexes, 342

Coordination polymers of copper(II) imides with polymeric heterocyclic Schiff bases of thiazole derivatives, 374

Synthesis of complexes of copper(II), nickel(II), cobalt(II), manganese(II) and iron(III) with bidentate Schiff base, 376

Potentiometric determination of formation constants of metal ion complexes with 4-hydrazinobenzofuro[3,2-*d*]pyri-midine Schiff base, 464

Synthesis of phenylthallium(III) dichloride and diphenylthallium(III) chloride complexes with bidentate Schiff base ligands : a photoelectron spectroscopic study, 502

Synthesis of phenylthallium(III) dichloride and diphenylthallium(III) chloride complexes with tetradentate Schiff base ligands : a photoelectron spectroscopic study, 527

Non-isothermal degradation and kinetic parameters of bidentate Schiff base complexes, 611

Formation constants of some bivalent transition metal complexes of *N*-(2-hydroxy-4-sulfononaphthylmethylidene)-4-bromophenylamine, 614

Synthesis and spectral studies of thorium(IV) and dioxouranium(II) metal complexes with Schiff base ligand, 686

Chromium(III), manganese(III), iron(III), oxovanadium(II), zirconium(IV) and dioxouranium(II) complexes of hydrazone of isonicotinic acid hydrazide, 689

Acoustical studies of some novel antimicrobially active 3*d*-metal-Schiff base complexes, 725

Synthesis, structure, spectra and redox behavior of a ruthenium(III) complex with a tripodal Schiff base ligand, 857

Uranium(IV) complexes of Schiff bases derived from 2-aminopyridine, 887

Synthesis and antimicrobial activity of copper-, cobalt- and nickel(II) complexes with Schiff bases, 921

Potentiometric study of the lanthanide(III) ion complexes with some Schiff bases, 958

Seeds

Magnetic susceptibilities of pulses, grams, grains and seeds, 541

Sensor

Conducting polymer based electrochemical sensor for strontium in nitric acid medium, 949

Shellac

Chemical modifications of lac. Part-II. Application of some modified lac on jute fibre to improve its serviceability, 298

Sigmatropic rearrangement

Aza-Claisen rearrangement, 112

Silver

Silver salt of *N*-bromo-4-methylbenzenesulfonamide as a new oxidimetric reagent, 602

Sinularia

New lipid metabolites from a new *Sinularia* species soft coral, 732

Sodium chloride

Limiting apparent molar volumes, their temperature derivatives and viscosity *B*-coefficients for some alkali-metal chlorides in aqueous tetrahydrofunan mixture, 148

Sodium dodecyl sulfate

Effect of polymer and temperature on the critical micellar concentration of aqueous sodium dodecyl sulfate, 505

Sodium periodate

Oxidation of 2-amino-5-aryl-1,3,4-oxadiazole by sodium periodate : a kinetic study, 898

Soils

Tracer diffusion of potassium and related parameters in three soils of West Bengal, 159

Free bonding energy between cations of Entisols, Inceptisols and Alfisols of India, 616

Influence of three carbamate pesticides on Mn and Fe status of saline sodic soil of Aligarh. Part-I, 671

Solvolysis

Solvolysis of the $[Cr(NCS)_4(benztriazole)_2]^-$ ion in ethanol-water mixtures, 649

Sorption

Studies on the sorption of cadmium(II) on the synthetic gel potassium fluorophlogopite, 520

Kinetics parameters and sorption of metal ions on newly synthesized chelate forming ion exchange resin, 705

Speciation

Effect of denaturants on the speciation of dicarboxylic acid : uranium(VI) complexes of oxalic acid in micellar media, 583

Sphingolipids

New lipid metabolites from a new *Sinularia* species soft coral, 732

Stability constant

Studies on ternary complexes of nickel(II) involving ligands with nitrogen, sulfur or oxygen as donor groups, 81

Polarographic study of [Cd-L-amino acidate-vitamin B_1] system, 276

Potentiometric determination of formation constants of metal ion complexes with 4-hydrazinobenzofuro[3,2-*d*]-pyrimidine Schiff base, 464

Polarographic behavior of cobalt(II)-2,4-dihydroxydeoxybenzoin complexes in 65% ethanol-water media, 763

Speciation of calcium(II) and magnesium(II) complexes of L-glutamine and succinic acid in ethylene glycol-water mixture, 796

Speciation of ternary complexes of calcium(II) and magnesium(II) with L-glutamine and succinic acid in ethylene glycol-water mixtures, 799

Studies on weak interactions : charge transfer and hydrogen bonding interactions of chloranil with substituted benzoic acids, amines and naphthols, 811

Solution equilibrium study on ternary oxovanadium(II)-hydroxyamino acids-imidazole systems, 831

Graphical methods of determination of stability constant of metal complexes using spectrophotometric and ion-selective electrode measurement data : cobalt(II)-PAR complex, 925

Steel

Corrosion inhibition of mild steel in aqueous binary solution of aggressive ions, 264

Stereoesters

Ytterbium metal promoted reaction of diselenides with (3-substituted)imidazolidin-2-one-1-carbonyl chlorides, 437

Stereospermum suaveolens

Quinonoid constituents from some Bignoniaceae plants, 946

Stilbenoids

Stilbenoids and flavonoids from the orchids *Coelogyne uniflora, Ione paleacea* and *Acrochoene punctata*, 169

Strontium

Mixed ligand complexes of alkaline earth metals. Part-XI. Magnesium-, calcium-, strontium- and barium(II) complexes with 5-chlorosalicylaldehyde and β-diketones, 531

Conducting polymer based electrochemical sensor of strontium in nitric acid medium, 949

Succinic acid

Effect of solvent on protonation equilibria of L-glutamine and succinic acid, 416

Speciation of calcium(II) and magnesium(II) complexes of L-glutamine and succinic acid in ethylene glycol-water mixture, 796

Speciation of ternary complexes of calcium(II) and magnesium(II) with L-glutamine and succinic acid in ethylene glycol-water mixtures, 799

Sulfates

A study on ion-solvent interactions of some sulfate compounds in aqueous tetrahydrofuran at different temperatures, 623

Surfactants

Effect of urea on the surface and thermodynamic properties of some micellar solutions, 151

Effect of surfactants on the kinetics of base catalyzed hydrolysis of methyl, ethyl, isopropyl and *n*-butyl acetates, 538

Tabebuia rosea

Quinonoid constituents from some Bignoniaceae plants, 946

***Tagetes* species**

Isolation and quantitative analysis of thiophenes from *Tagetes* species by HPLC, 546

Tannins

Simultaneous quantitation of tannis using reversed phase high performance liquid chromatography, 195

Terbium

A study of the fluorescence system of terbium-enoxacin and its applications, 444

Electrochemical behavior of mixed complexes of terbium(III) with 4-(2-pyridylazoresorcinol) and 1-(2-pyridylazo)-2-naphthol, 759

Tetraarylfurans

Sm/$TiCl_4$ system induced reductive coupling reactions : synthesis of tetraarylfurans, 188

Tetraazaannulene

Synthesis of strapped nickel(II) macrocyclic complex of tetraaza[14]annulene, 525

Tetraazacyclododecatetraene

Template synthesis of copper(II) complexes of two twelve-membered tetradentate nitrogen donor macrocyclic ligands, 495

Tetraazamacrocycles

Synthesis and biological studies of 16-26 membered tetraaza-macrocyclic complexes of tin(II), 371

Tetrabutylammonium tribromide

Kinetics and mechanism of the oxidation of secondary alcohols by tetrabutylammonium tribromide, 815

Tetrahydrofuran

Limiting apparent molar volumes, their temperature derivatives and viscosity *B*-coefficients for some alkali-metal chlorides in aqueous tetrahydrofuran mixture, 148

A study on ion-solvent interactions of some sulfate compounds in aqueous tetrahydrofuran at different temperatures, 623

Thallium

Sub-ppm determination of thallium(I) in biologically and complex materials, 261

Synthesis of phenylthallium(III) dichloride and diphenylthallium(III) chloride complexes with bidentate Schiff base ligands : a photoelectron spectroscopic study, 502

Synthesis of phenylthallium(III) dichloride and diphenylthallium(III) chloride complexes with tetradentate Schiff base ligands : a photoelectron spectroscopic study, 527

Estimation of thallium(III) alone and in mixture with thallium(I) titrimetrically, 631

The Ganga river

Pollution of the river Ganga and the Ganga Action Plan : an evaluation, 366

Thermal analysis

Thermal and alkali-catalyzed hydrolysis study of *R,R'*,4,4'-cyclohexylidenediphenyloxyacetic acids and their ethyl esters, 932

Thermal analysis of phenoxyacetic acids of bisphenol derivatives and poly(*R,R'*,4,4'-cyclohexylidenediphenylene phosphorochloridate), 936

Thiamine

Polarographic study of [Cd-L-amino acidate-vitamin B_1] system, 276

Thiazines

Synthesis and antimicrobial activity of 2-imino-4-(benzimidazol-2-yl)-6-aryl-6*H*-2,3-dihydro-1,3-thia/oxazines, 966

Thiazolylazocoumarin

Synthesis, X-ray diffraction and microbiological study of 8-[4-(*p*-nitrophenyl)-2-azothiazolyl]-7-hydroxy-4-methylcoumarin, 440

Thiazolylhydrazone

Synthesis of some transition metal complexes with 4-(phenyl/*p*-bromophenyl)thiazolylhydrazone of *o*-anisaldehyde, 48

Thiazolidinones

Synthesis and antimicrobial activity of some new 4-thiazolidinones derived from heterocyclic Schiff bases, 284

Synthesis and antibacterial activity of new Schiff bases, 4-thiazolidinones and 2-azetidinones, 768

Thienylmethylidenetolylene

Studies on *N,N'*-[2,2'-bis-thienylmethylidene]tolylene, 135

Thin layer electrophoresis

Paper and thin layer electrophoresis of metal ions and anions – a review, 563

The effect of ionic surfactants on the behavior of phenols on bismuth tungstate thin layers, 739

Thioanide

A quantomechanical explanation for the electronic transitions of the square-planar [$MLCl_2$] complexes, 409

Thiocarbamates

Tetrathiocarbamato complexes and forced configurations, 719

Thiocarbamides

Synthesis and antibacterial activities of 1-(*p*-chlorophenyl)-2-amino/hydrazino-4-(*p*-nitrophenyl/*p*-chlorophenyl)-1,6-dihydro-1,3,5-triazine-6-thiones and related thiocarbamides, thiosemicarbazides and Schiff bases, 176

Synthesis of some new thiocarbamides from a constituent of lac and studies on their antimicrobial activities, 841

Thiocyanate

Extraction-spectrophotometric determination of rhenium(VII) with thiocyanate and amidines in the presence of cetyltrimethyl-ammonium bromide, 388

Solvolysis of the $[Cr(NCS)_4(benztriazole)_2]^-$ ion in ethanol-water mixtures, 649

Thiosemicarbazides

Synthesis and antibacterial activities of 1-(*p*-chlorophenyl)-2-amino/hydrazino-4-(*p*-nitrophenyl/*p*-chlorophenyl)-1,6-dihydro-1,3,5-triazine-6-thiones and related thiocarbamides, thiosemicarbazides and Schiff bases, 176

Thiosemicarbazone

Synthesis and spectral characterization of mixed ligand zinc(II) complexes with heteroaromatic thiosemicarbazones and pyridine/picoline, 132

Synthesis and antimicrobial evaluation of thiosemicarbazones, 544

Thiourea

Spectrophotometric determination of copper(II) by adsorption of its 1-allyl-3-(6-methylpyridyl)thiourea complex on polyurethane foam, 555

Thorium

Synthesis and spectral studies of thorium(IV) and dioxouranium(II) metal complexes with Schiff base ligand, 686

Tin

Isoamyl xanthate as a sensitive reagent for the spectro-photometric determination of tin, 359

Synthesis and biological studies of 16-26 membered tetraazamacrocyclic complexes of tin(II), 371

Acceptor behavior of organotin(IV)-2,4-dinitrophenoxides with nitrogen donors, 822

Titanium

Kinetic spectrophotometric determination of titanium(IV) at trace level with bromopyrogallol red in ionic/non-ionic surfactant mixed micellar media, 65

Synthesis and fungicidal activity of the complexes of *N*-alkylphenothiazines with titanium(IV) and zirconium(IV), 828

Titanium dioxide

Photocatalytic reaction of vanillin oxime and salicylaldehyde oxime by TiO_2 semiconductor, 185

Hydroxylation of benzene using titanium dioxide as a semiconductor, 904

Toluene

Excess Gibbs' energy of binary mixtures of hard sphere fluids, 274

Transition metals

Synthesis of complexes of copper(II), nickel(II), cobalt(II), manganese(II) and iron(III) with bidentate Schiff base, 376

Potentiometric determination of formation constants of metal ion complexes with 4-hydrazinobenzofuro [3,2-*d*]pyrimidine Schiff base, 464

Complexation of some transition metal ions with 1,2,2-trimethyl-1,3-cyclopentanedicarboxylate and CDTA, 466

Dinuclear complexes of bivalent Mn, Co, Ni, Cu, Zn, Cd and Hg with bis-bidentate oxygen donor azodye ligands, 536

Polymetallic complexes. Part-LXXVIII. Complexes of Mn^{II}, Co^{II}, Ni^{II}, Cu^{II}, Zn^{II}, Cd^{II} and Hg^{II} with NOON and ONOONO donor azodye ligands, 609

Non-isothermal degradation and kinetic parameters of bidentate Schiff base complexes, 611

Formation constants of some bivalent transition metal complexes of *N*-(2-hydroxy-4-sulfononaphthylmethylidene)-4-bromophenylamine, 614

Quantitative equilibrium studies on mixed ligand complexes of nickel-, copper- and zinc(II) with some nitrogen and oxygen donor ligands, 645

Chromium(III), manganese(III), iron(III), oxovanadium(II), zirconium(IV) and dioxouranium(II) complexes of hydrazone of isonicotinic acid hydrazide, 689

Polychelates of 4,4′-bis[(*N*-phenylsalicylaldimine-5)azo]-biphenyl with some transition metal ions, 722

Biosorption of heavy metals by *Rhizopus arrhizus* and *Aspergillus niger*, 747

A study on potential donor sites of some substituted 1,2,4-triazoles and their denticity, 826

Trazodone

Development of ion-association methods for the spectrophotometric assay of trazodone, 452

Triazinethiones

Synthesis and antibacterial activities of 1-(*p*-chlorophenyl)-2-amino/hydrazino-4-(*p*-nitrophenyl/*p*-chlorophenyl)-1,6-dihydro-1,3,5-triazine-6-thiones and related thiocarbamides, thiosemicarbazides and Schiff bases, 176

Triazoles

A study on potential donor sites of some substituted 1,2,4-triazoles and their denticity, 826

Synthesis and antimicrobial activity of 1,2,4-triazoles, 964

Triazolothiadiazines

Synthesis and biological screening of bridgehead nitrogen heterocycles : reactions of 4-(*N*-pyridylcarboxamido)-5-mercapto-3-substituted-1,2,4-triazoles, 381

Triazolothiadiazinones

Synthesis and biological screening of bridgehead nitrogen heterocycles : reactions of 4-(*N*-pyridylcarboxamido)-5-mercapto-3-substituted-1,2,4-triazoles, 381

Tributylamine

Retention behavior of amino acids on plain, tri-*n*-butyl phosphate and tri-*n*-butylamine impregnated silica gel-G layers in mixed mobile phases, 743

Tributyl phosphate

Retention behavior of amino acids on plain, tri-*n*-butyl phosphate and tri-*n*-butylamine impregnated silica gel-G layers in mixed mobile phases, 743

Tungsten

Microdetermination of tungsten in environmental samples by differential pulse polarography, 953

Ultrasonic velocity

Application of various theories on ternary system of heptadecane, butanol and dimethyl sulfoxide at 298.15, 308.15 and 318.15 K, 145

Studies on acoustical properties of poly (4,4′-diphenylphthalidediphenyl-4,4-disulfonate) at 30°, 620

Acoustical studies of some novel antimicrobially active 3*d*-metal-Schiff base complexes, 725

Ulva fasciata

Nitrogenous glycerolipids from *Ulva fasciata* (Ulvaceae, Chlorophyta) of West Coast of India, 843

Ulva lactuca

Sterols from marine green algae of Indian waters, 294

Ulva reticulata

Sterols from marine green algae of Indian waters, 294

Uracil

Synthesis of ionic chelates of hafnium(IV)-uracil complexes, 639

Uranium

Physicochemical studies on uranium(VI) complexes of *N,N*-dialkylamides, 498

Dioxouranium(II) complexes of piperidylhydrazones, 529

Effect of denaturants on the speciation of dicarboxylic acid : uranium(VI) complexes of oxalic acid in micellar media, 583

Synthesis and spectral studies of thorium(IV) and dioxouranium(II) metal complexes with Schiff base ligand, 686

Uranium(IV) complexes of Schiff bases derived from 2-aminopyridine, 887

Uranium-pyridylazoresorcinol

Colorimetric determination of ascorbic acid in pharmaceuticals using U^{VI}-4-(2-pyridylazo)resorcinol complex, 95

Urea

Effect of urea on the surface and thermodynamic properties of some micellar solutions, 151

Vanadium

A highly selective and sensitive spectrophotometric determination of vanadium(III) using 3-hydroxy-2-(2-thienyl)-4*H*-chromen-4-one, 68

Individual simultaneous first derivative spectrophotometric determination of copper and vanadium in alloy steels and complex materials with 2-hydroxy-1-naphthaldehydebenzoylhydrazone, 71

Tetrathiocarbamato complexes and forced configurations, 719

Solution equilibrium study on ternary oxovanadium(II)-hydroxyamino acids-imidazole systems, 831

Viscosity

Viscosity of xanthan based drilling fluids : effect of temperature, additives, rheometer geometry, 361

Partial molar volumes, viscosity β-coefficient and hydration number of some pharmacologically important drugs in aqueous solutions, 356

A study on ion-solvent interactions of some sulfate compounds in aqueous tetrahydrofuran at different temperatures, 623

Density and viscosity of ternary liquid mixtures of pyridine with some polar solvents at 303.15 K, 659

Conductance and viscosity studies of some univalent electrolytes in water, dimethyl sulfoxide and water + dimethyl sulfoxide mixtures at different temperatures, 860

Vitamin C

Analysis of vitamin C content in samples of different origin, 97

Vitex negundo

Terpenoid constituents from some indigenous plants, 550

Water pollution

Pollution of the river Ganga and the Ganga Action Plan : an evaluation, 366

X-Ray crystal structure

Synthesis, X-ray diffraction and microbiological study of 8-[4-(*p*-nitrophenyl)-2-azothiazolyl]-7-hydroxy-4-methylcoumarin, 440

Synthesis and crystal structure of *cis*-dioxomolybdenum(VI) complex with salicylaldehyde-2-pyrazinoylhydrazone, 486

Crystal structure of iron(III) complex with pyridine-2,6-dicarboxylic acid, 489

Organomercury complexes of sulfide-thiol ligands : X-ray structure determination of {$CH_3Hg[ph(SCH_3)C{=}C(S)\text{-}Ph]$}, 492

Xanthan

Viscosity of xanthan based drilling fluids : effect of temperature, additives, rheometer geometry, 361

Xanthate

Isoamyl xanthate as a sensitive reagent for the spectro-photometric determination of tin, 359

Ytterbium

Ytterbium metal promoted reaction of diselenides with (3-substituted)imidazolidin-2-one-1-carbonyl chlorides, 437

Zeolite

Studies on lead(II)-exchanged natural zeolite and its interacted derivatives with NH_3 and H_2S before and after heating, 345

Studies of natrolite type natural zeolite and its cation-exchanged and adsorbed derivatives with cadmium(II) and NH_3 and H_2S, 580

Zinc

Borate complexes in solution. Part-III. Mixed ligand complex formation of cobalt-, nickel- and zinc(II) with boric acid and some (N,N) bidentate ligands, 45

Chelatometric titration of iron, zinc and aluminium involving masking and demasking with acetylacetone, 92

Synthesis and spectral characterization of mixed ligand zinc(II) complexes with heteroaromatic thiosemicarbazones and pyridine/picoline, 132

Zinc oxide

Use of zinc oxide particulate system as a photocatalyst : photobleaching of Rose Bengal, 929

Zirconia

Effect of Y_2O_3 on the sintering behavior of sol-gel derived zirconia-mullite precursor through inorganic route, 819

Effect of ZrO_2 substitution on the sintering behavior of cordierite ceramics, 850

Synthesis of a new heterogeneous catalyst comprising 12-molybdophosphoric acid on to hydrous zirconia, 892

Zirconium

Synthesis and fungicidal activity of the complexes of *N*-alkylphenothiazines with titanium(IV) and zirconium(IV), 828
